

SITE SELECTION

STORAGE

- A North-South orientation of stacks will create ideal ventilation conditions and also will increase the incidence of sun exposure to straw/hay bales.

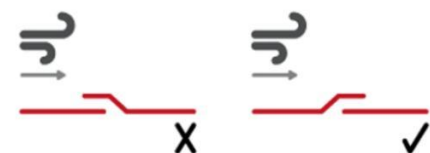

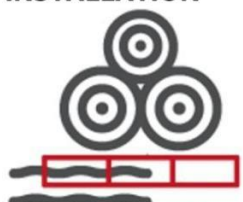

- Recommended to keep a distance of 3-5m from other stacks. Shady sites (i.e. below trees) are not eligible for storing straw/hay bales.

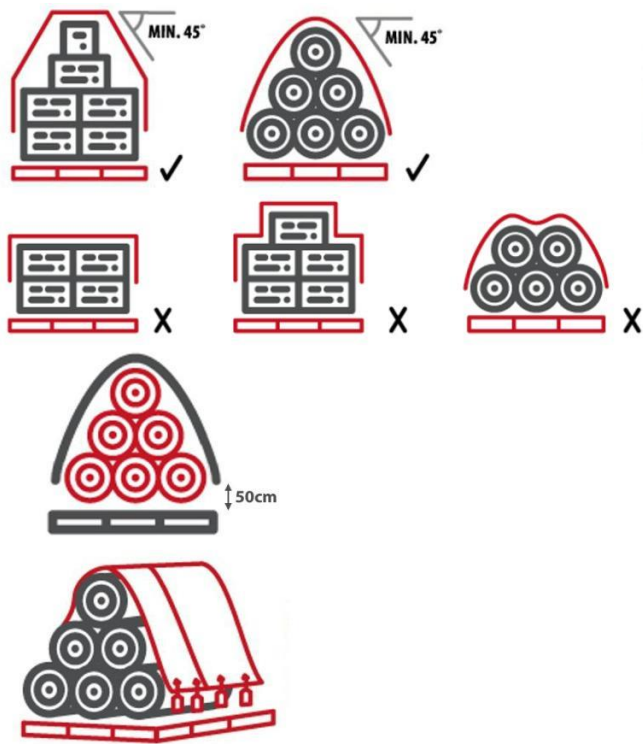

- Recommended to keep a distance of 8-10m from trees/buildings etc.

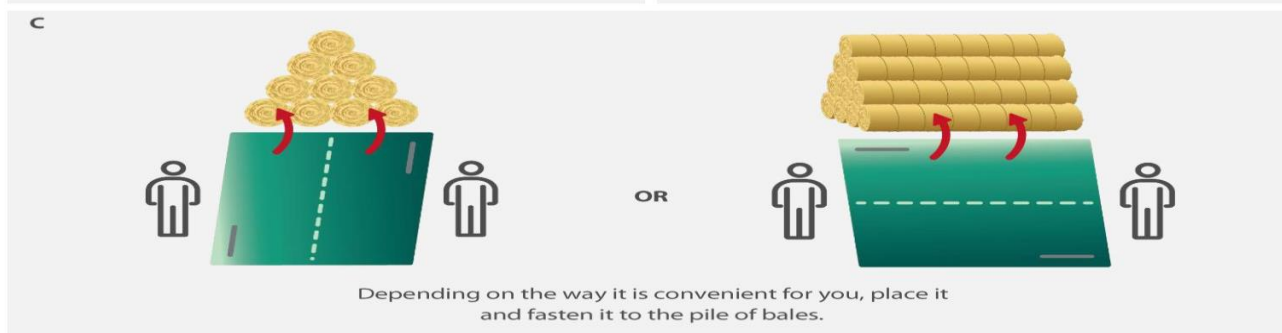

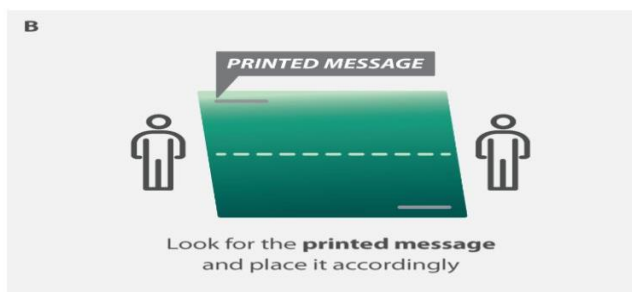

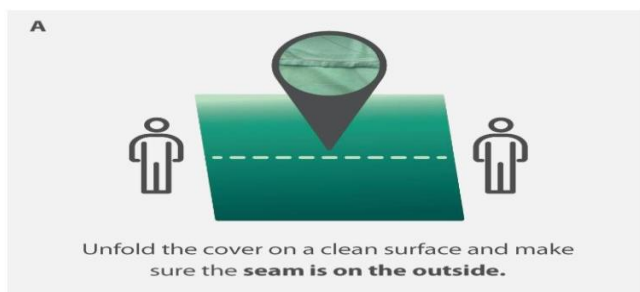

INSTALLATION

- Store the straw/hay bales 25cm above the ground (i.e. on pallets) to avoid stormwater runoff, but also to allow natural ventilation.
- Cover the straw/haystacks with the fabric. Please take note of the printing on the edge of the fabric. This will guide you to install the cover facing the correct way ("up" side towards the sky and "down" side towards the hay/straw etc).
- Overlap the fabric sheets by a minimum of 25cm, depending on prevailing wind direction. In heavy wind-prone areas, an overlap of over 35cm is mandatory.

- Efficient water shedding at slope angles $>45^\circ$.
Do not allow fabric sag and create flat surfaces, keep stretched.
- Tighten the fabric on the sides of the stack, leaving a distance of $\sim 50\text{cm}$ from the ground to avoid contact with stagnant water, and also to allow natural ventilation.
- Any use of rope attached on the fabric for tightening purposes is strongly discouraged.
- Fix the fabric on the stack (i.e. pins, sandbags, stainless steel rod with clips, individual clips etc.).

STACK STYLE	BALES TO COVER	BALE Ø 1.2m	BALE Ø 1.5m	BALE Ø 1.8m
		SUITABLE COVER SIZE (width x length)		
	48			12.5x9.8
	60		9.8x12.5	
	75			12.5x15.6
	120	7.6x25	9.8x25	12x25
STACK STYLE	BALES TO COVER	BALE Ø 1.2m	BALE Ø 1.5m	BALE Ø 1.8m
		SUITABLE COVER SIZE (width x length)		
	80		12.5x9.8	
	100	9.8x12.5		15.6x12.5
	120		12.5x15.6	
	200	9.8x25	13x25	15.6x25
STACK STYLE	BALES TO COVER	BALE Ø 1.2m	BALE Ø 1.5m	BALE Ø 1.8m
		SUITABLE COVER SIZE (width x length)		
	120	12.5x9.8		
	150		15.6x12.5	
	180	12.5x15.6		
	300	13x25	15.6x25	18x25

Cover sizes are nominal and are subject to -2% manufacturing tolerances.
